Asunto: Cancellation of the European Championship Shotgun

Dear Friends

Due to Coronavirus pandemic all over Europe and hard deconfinement measures (closed borders) that will be taken by the French government, the French Shooting Federation won't be able to organize the European Championship Shotgun neither in June nor in september 2020 (2nd option) and is then obliged to cancel this competition.

The ESC has officially been informed of this cancellation.

For the nations which have ever paid some amounts (entries or hotels), please send us your bank details (ech20@fftir.org) for us to be able to give you the money back.

The French Shooting Federation is really sorry and will make efforts to welcome again your shooters for another great competition in the following years in Châteauroux.

Best regards

Patrick Lamarque

French Shooting Federation
